0-22-27

**DUTCH
FERTI**

50 gr
to
100 liter

The best stimulator for the growth of your buds!

Dutch Ferti Bud Powder (0-22-27) is the highest concentrated shooting powder in the market.

The product is used for extra flower production in the last weeks of the flowering cycle, which will result in **up to 40% increase in yield**. Bud Powder ensures that your buds will be rock hard.

Bud Powder may be used in combination with all nutrient lines, and will give you biggest and most dense buds you have ever seen.
